PETITION TO DIRECTOR OF
TECHNICAL CENTER 2100 UNDER 37
C.F.R. § 1.181

Mail Stop AF
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In response to the Final Office Action mailed January 30, 2006 on the above-referenced application, this Petition to the Director of Technical Center 2100 under 37 C.F.R. §1.181 is being filed contemporaneously with an Amendment Under 37 C.F.R. §1.116 Expedited Procedure Examining Group 2131. Applicant respectfully submits that a Requirement for Information under 37 C.F.R. 1.105 in the Final Office Action mailed January 30, 2006 is improper and therefore requests that the Requirement be withdrawn.

The Final Office Action has made a Requirement for Information under 37 C.F.R. §1.105 regarding five (5) references (the "SiteMinder documents") originally cited in an Information Disclosure Statement filed by the Applicants on March 12, 2004. More

specifically, the Requirement for Information as stated in the Final Office Action requests, because of the voluminous nature of the references, an explanation of the references. Furthermore, the Final Office Action states that the references have been "placed in the application file, but the information referred to therein has not been considered."

However, the first Office Action dated July 14, 2005 included a copy of the Applicant's Information Disclosure Statement in which the SiteMinder documents were cited. In this copy, dated July 8, 2005, the SiteMinder documents were initialed and the Information Disclosure Statement was signed by the Examiner indicating that the references had in fact been considered. Attached is a copy of the Information Disclosure Statement filed by the Applicant, signed and dated by the Examiner July 8, 2005, wherein the Examiner had initialed all of the five (5) SiteMinder documents.

Additionally, as stated in MPEP §704.11(b):

"A requirement may be made at any time once the necessity for it is recognized and should be made at the earliest opportunity after the necessity is recognized. **The optimum time for making a requirement is prior to or with a first action on the merits** because the examiner has the maximum opportunity to consider and apply the response. Ordinarily, **a request for information should not be made with or after a final rejection.**" [emphasis added]

Applicant respectfully argues that if there was a necessity for such information it should have been recognized prior to issuance of the first Office Action and therefore the Requirement for Information should have been made in the first Office Action. Rather, the first Office Action included a signed copy of the Information Disclosure Statement filed by the Applicant with the SiteMinder references initialed indicating that the references had in fact been considered even without the newly required information and in spite of the voluminous nature of the references. Therefore, the Applicant believes that the Requirement for Information is improper and should be withdrawn.

Richard P. Sinn
Application No. 09/998,914
Page 3

Furthermore, Applicant respectfully argues that the Requirement for Information is not proper as it is made in the Final Office Action. Regarding a Requirement for Information made with or after a final rejection, MPEP §704.11(b) goes on to state:

"A requirement for information is not proper when no further action would be taken by the examiner. The reasonable necessity criteria for a requirement for information implies further action by the examiner. This means that **actions in which requirements for information necessary for examination are made should generally be a non-final action because the applicant's reply must be considered** and applied as appropriate." [emphasis added]

For at least these reasons, Applicant believes that the Requirement for Information is improper. Therefore, Applicant respectfully requests withdrawal of this Requirement for Information.

The Commissioner is authorized to deduct any Fee for this Petition to Director from the undersigned's Deposit Account No. 20-1430. Please deduct any additional fees from, or credit any overpayment to, the above-noted Deposit Account.

CONCLUSION

If the Director believes a telephone conference would expedite prosecution of this application, please telephone the undersigned at: 303-571-4000.

Respectfully submitted,

William J. Daley
